## OBJECTIVE

I currently work as an IT executive at Colombo Logistics group of company but am looking to move into a Network Administrator role in the IT industry.

---

## PERSONAL STATEMENT

A highly motivated and hardworking individual, who has currently doing the Final year of BSc (HONS) computing degree. Seeking an apprenticeship in the field of Computer Networking industry to build upon a keen computer scientific interest and start a career as a Network Technician. Computational minded, with a methodical approach to working and an eagerness to learn and develop personal skills in a practical setting. Eventual career goal is to become a fully-qualified and experienced Network Engineer, with the longer-term aspiration of moving into Network Administrator.

## PROFESSIONAL SKILLS

### Cisco

- CCENT
- CCNA (Routing, Switching, Troubleshooting)
- CCNP (Routing, Switching)
- CCIE (Routing, Switching)

### Languages

- C#
  - Python
  - Asp.Net
- 

## PERSONAL SKILLS

- Communication - in my role at Colombo Logistics, when issues come, I regularly interact with staff to find the best solutions.
  - Ability to Work under Pressure - at Colombo Logistics, when servers gone down, we work hard and make the servers back-on by managing the pressure.
  - Time Management – at Powernet, we strictly work on time and manage to finish the projects on time.
  - Leadership - at Colombo Logistics, I take my own decision to come up with problems.
  - Adaptability – at Colombo Logistics, I learn how to adapt for every situation.
- 

## PROJECTS

- **Library Management System (C# & MYSQL)**  
The system is a standalone system which will manage all the functionalities related to a library. The system will manage all the aspects of a Book Borrowing Process including member registration, book details, return books, fine calculation.
- **Voting Website (C#, ASP.net, MVC & SQL Server)**  
This system provides to vote for their hero, like their hero's and provide function for commenting their hero. It's include a user login System to identify the user and counting the votes and likes.

- [Bus Tracking System \(C#, ASP.net, MVC, SQL Server, Azure & Google API\)](#)

This system is a web based project that use to locate the nearest bus and the bus route for user. The System gives all the nearest bus stops and the arrival time to the bus stop for user. Driver also can see how many passengers in the bus stop and who are near to the bus stop and give them an alert message with the arrival time.

- ["Hemas" New Building Project at Bambalapitiya, Colombo](#)

This project is done with the Powernet (Pvt) Ltd. I have learned data, voice, power cabling. It has around 900 data, power and voice outlets, each outlet in the floor is connected to separate switches and all the switches are connected to the server room via fiber lines. Hands on experience in fiber lines and connection methods.

---

## INTERESTS

I am a very active person and like to spend time with my friends in my free time. I also like to travel to places, to enjoy the nature and for adventures.
